INTRODUCTION-CONT'D

The Student/Trainee and the Teacher/Trainer manuals are developed to provide training content that addresses the specific 'Unit of Competency' as outlined on the following pages.

This unit manuals can be packaged with various manuals addressing other 'Units of Competency' in order to meet the 'Packaging Rules' of a particular Australian Training Package Qualification.

This resource has been designed to be delivered in a form that is conducive to the learning environment including:

- ☆ Online delivery
- ☆ Classroom delivery
- ☆ On the job training

The documents are designed in a 'landscape' format in order to make reading on a computer screen easier as well as reduces the need to scroll down pages. Documents can be easily printed if the learning environment requires the student or trainee to have hard copies of the learning materials.

The Student/Trainee and the Teacher/Trainer manuals are Portable Document Files (PDF) and are opened using Adobe Reader.

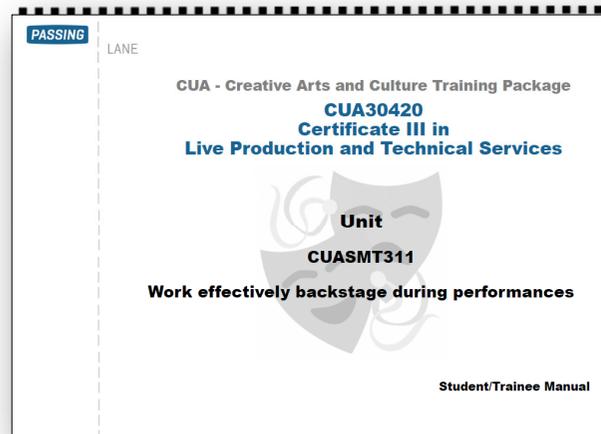

The latest Acrobat Reader software is available at no charge from the website <http://get.adobe.com/reader/>

INTRODUCTION—CONT'D

The Student/Trainee and the Teacher/Trainer manuals can be used on both PC and MAC platforms.

Generally, the materials are easily exported to most learning platforms.

The materials can also be printed and bound and handed out as hardcopies to each student or trainee.

MATERIALS CONTENT—CONT'D

In each section the content is broken down into sub-sections and the titles for each sub-section is the same as the 'Element's' 'Performance Criteria'.

The manual's information is supported with graphics, charts, tables, photos and drawings.

MATERIALS CONTENT-CONT'D

As earlier mentioned, the materials are vocational education and training unit resources in the form of Student/Trainee and the Teacher/Trainer manuals.

We will go through each in more detail.

STUDENT/TRAINEE MANUAL

The 'Student/Trainee Manual' could be likened to a textbook.

The manuals contain detailed information aligned specifically the 'Unit of Competency' and the unit's 'Elements' and 'Performance Criteria' and are supported with graphics, charts, tables, photos and drawings.

The manuals contain a series of 'Learning Activities'.

Each learning activity is identified with the following icon.

**Learning
Activity**

MATERIALS CONTENT-CONT'D

Learning activities come in the following forms.

- ☆ Questions
- ☆ Research
- ☆ Tasks
- ☆ Interviews

Questions

Questions would relate to the information presented on previous pages.

Research

This type of learning activity would require the student or trainee to locate information by using research methods. The information they would be required to locate would be in line and/or support the information that the manual had outlined in previous pages.

A blue rounded rectangular button with the text "Learning Activity" in white, bold, sans-serif font, centered on the button.

Research

Tasks

This learning activity type would require the student/trainee to actually do or undertake something and would be reinforcing the knowledge they have gained from reading the manual's previous pages.

Interviews

This learning activity type would require the student/trainee to interview person(s) in an actual workplace environment or a person(s) who are experienced in the industry sector which the student/trainee is currently undergoing training.

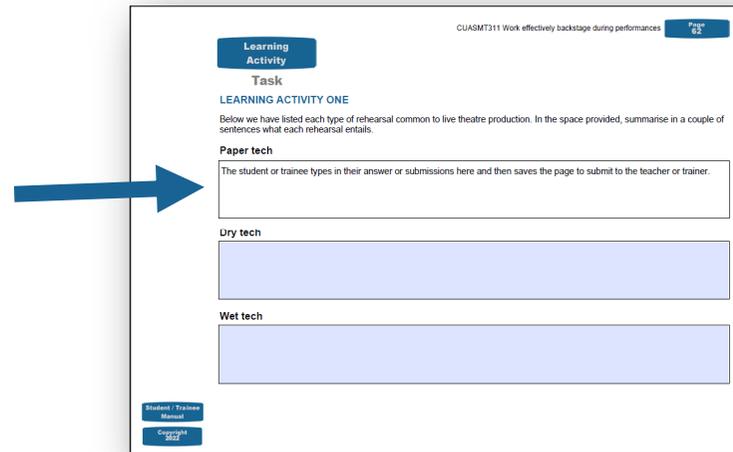

The student/trainee is made aware of the type of learning activity by noting the learning activity type displayed under the learning activity icon.

MATERIALS CONTENT—CONTID

The learning activities in the Student/Trainee manuals are 'Form Enabled' so that if the resources delivered are online, the activities can be filled in using the computer keyboard.

The student or trainee would simply place the cursor in the field and click once with the mouse.

Seconds later the blue colour disappears and the student enters his/her answers into the field .

The screenshot shows a digital form titled 'Learning Activity Task'. At the top right, it says 'CUASMT311 Work effectively backstage during performances' and 'Page 63'. Below the title, it says 'LEARNING ACTIVITY ONE' and provides instructions: 'Below we have listed each type of rehearsal common to live theatre production. In the space provided, summarise in a couple of sentences what each rehearsal entails.' There are three input fields: 'Paper tech' (with a blue arrow pointing to it), 'Dry tech', and 'Wet tech'. The 'Paper tech' field contains the text: 'The student or trainee types in their answer or submissions here and then saves the page to submit to the teacher or trainer.' At the bottom left, there are two small buttons: 'Student / Trainee Manual' and 'Copyright 2022'.

When the student or trainee leaves the filled in field to move on to the next field, the previous field returns to a blue colour.

IT IS VERY IMPORTANT THAT THE MANUAL IS SAVED REGULARLY.

It is recommended that the student or trainee set up a 'Student/Trainee' folder on their computer and saves their manuals to that folder.

The ***'first'*** SAVE will have the software will ask if you wish to replace the file and the student/trainee would click YES.

Saving does not prevent the student or trainee from going back to previous fields to make changes.

After the 'first' SAVE, the student or trainee would need to use the **'SAVE AS'** function.

MATERIALS CONTENT—CONT'D

Self Assessment

At the end of each manual is a series of questions that the student or trainee should review and answer.

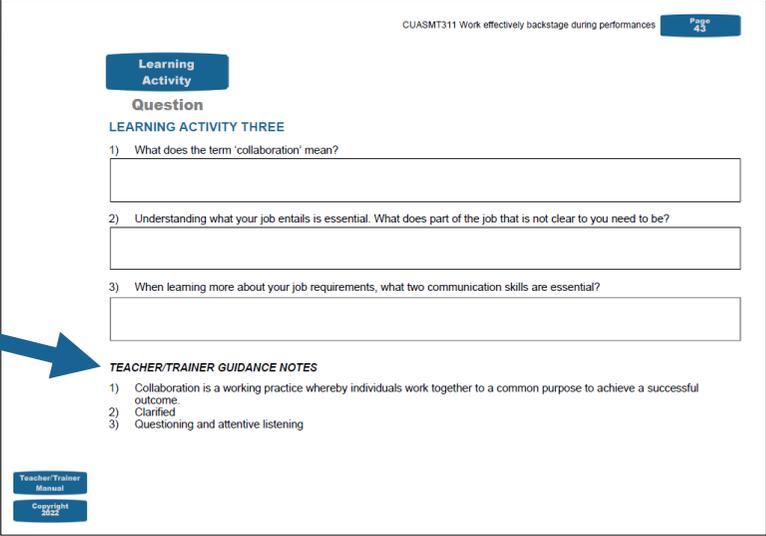

This self assessment is to ensure in the student's or trainee's mind that they have reviewed and understood the information that was presented in the manual.

If they are unsure of their understanding in any of the topics reviewed, they are encouraged to go back and review the information again and/or seek the assistance of their teacher or trainer.

TEACHER/TRAINER MANUAL

The Teacher/Trainer manuals have exactly the same content as the Student/Trainee manuals.

The only differences are the explanatory introduction pages and after each learning activity there are 'Teacher/Trainer Guidance Notes'. These provide the answers to the 'Learning Activities' as well as some notes on how to assess the student/trainee's submission to each learning activity.

POWERPOINT SLIDE PRESENTATIONS

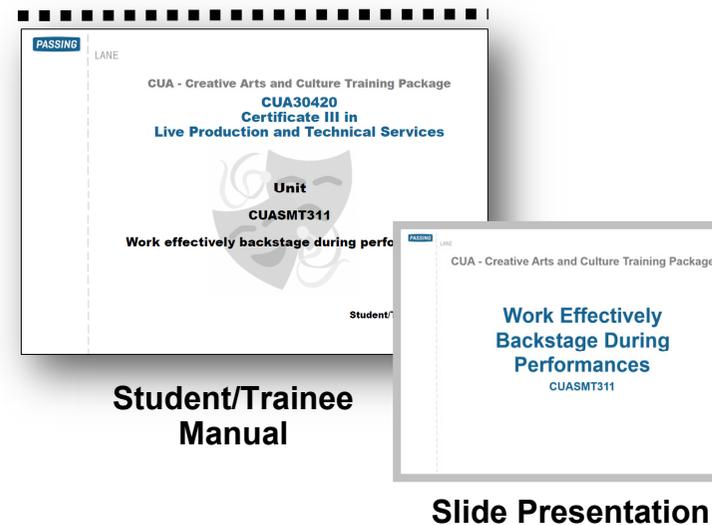

Each Passing Lane unit resource comes with a PowerPoint slide presentation.

Each slide is mapped to a specific page in the Student/Trainee manual.

The slide is only a summary of the manual page content and is used by teachers or trainers as a support training aid in classroom training delivery or online training.

The PowerPoint slide presentation is supplied as a 'Show'.

This means the PowerPoint file has the PowerPoint launch software embedded in the file so the student, trainee, teacher or trainer does not require the PowerPoint application software to view.

POWERPOINT SLIDE PRESENTATIONS—CONT'D

The slides are initially listed in a **'Table of Contents'** and the slide names in the Table of Contents are **hyperlinked** to the relevant slide.

This allows the teacher or trainer to easily jump ahead to a specific subject or go back where they may have left off earlier.

On the top right hand corner is an icon of the Table of Contents that is **hyperlinked** back to the Table of Contents.

ASSESSMENT MAPPING UTILITIES

Passing Lane does not provide assessment tools as this is the responsibilities of the registered training organisation under the rules of ASQA.

However, Passing Lane does offer an 'Assessment Mapping Utility' for each student/trainee manual.

The mapping utility document outlines where the student/trainee manual content addresses the 'Element' and each 'Performance Criteria' by page number(s).
